

[MOBILE CLINIC / TESTING STATION

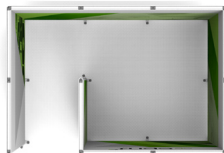

triga_{go}

These portable booths can be erected without tools in an extremely short space of time. Consisting of a modular aluminium frame structure and printed textile panels, these lightweight TRIGA® Go structures can be sized and configured to your specific requirements and floorplan.

- Ideal as temporary wards, screening booths and consultation rooms.
- Flat packs into carry bags.
- Toolless assembly.
- Modular frame that can be reconfigured.
- Washable & interchangeable textile prints.
- Size: 3000mm (W) x 2200mm (D) x 2250mm (H)
- 2 Year Warranty on aluminium hardware.

Reconfigure for future use into over 20 different designs.
